

**JAVA SWING BASED – CAREER
DENDROGRAM – SQL
CONNECTIVITY USING JDBC**

A

Report

*Submitted in partial fulfillment of the
Requirements for the award of the Degree of*

**BACHELOR OF ENGINEERING
IN
INFORMATION TECHNOLOGY
By**

**K SAI SHRUTHI <1602-20-737-036>
Under the guidance of Ms B. Leelavathy**

**Department of Information Technology
Vasavi College of Engineering (Autonomous)
(Affiliated to Osmania University)
Ibrahimbagh, Hyderabad-31**

2021-2022

BONAFIDE CERTIFICATE

This is to certify that this project report titled
‘CAREER DENDROGRAM’
is a project work of **K SAI SHRUTHI** bearing
roll no. 1602-20-737-036 who carried out this
project under my supervision in the IV semester
for the academic year 2020- 2021

ABSTRACT

Career Dendrogram is a console-based project that connects students looking for career choices with great skills and requirements. Every user, must enter their details and information required to generate the right career choice. The students can look out for jobs they are interested in. It allows the student to know what can be the best choice of career.

Requirement Analysis

List of Tables:

- Students
- Student_Description
- Skills
- Career_Status

List of Attributes with their Domain Types:

Students

- SID NOT NULL VARCHAR2(15)
- SNAME NOT NULL VARCHAR2(20)

CAREER DENDROGRAM

Students_Description

- SID VARCHAR2(15)
- AGE VARCHAR2(10)
- GENDER NOT NULL VARCHAR2(15)

Skills

- SID VARCHAR2(15)
- SS1 NOT NULL VARCHAR2(30)
- SS2 NOT NULL VARCHAR2(30)
- AOI NOT NULL VARCHAR2(30)

Career_choice

- SID VARCHAR2(15)
- JS NOT NULL VARCHAR2(10)

AIM AND PRIORITY OF THE PROJECT

To create a **Java GUI-based** desktop application that connects students looking for career choices with skills and Interest. It takes values like student name, username, Age, Skills, etc through forms which are then updated in the database using JDBC connectivity.

ARCHITECTURE AND TECHNOLOGY

Software used:

Java, Oracle 11g Database, Java SE version 14, Run SQL.

Java SWING:

Java SWING is a GUI widget toolkit for Java. It is part of Oracle's Java Foundation Classes (JFC) - an API for providing a graphical user interface (GUI) for Java programs.

Swing was developed to provide a more sophisticated set of GUI components than the earlier AWT. Swing provides a look and feel that emulates the look and feel of several platforms, and also supports a pluggable look and feel that allows applications to have a look and feel unrelated to the underlying platform. It has more powerful and flexible components than AWT. In addition to familiar components such as buttons, check boxes and labels, Swing provides several advanced components such as tabbed panel, scroll panes, trees, tables, and lists.

SQL:

Structure Query Language(SQL) is a database query language used for storing and managing data in **Relational** DBMS. SQL was the first commercial language introduced for E.F Codd's Relational model of database. Today almost all RDBMS (MySQL, Oracle, Infomix, Sybase, MS Access) use **SQL** as the standard database query language. SQL is used to perform all types of data operations in RDBMS.

DESIGN

Entity Relationship Diagram

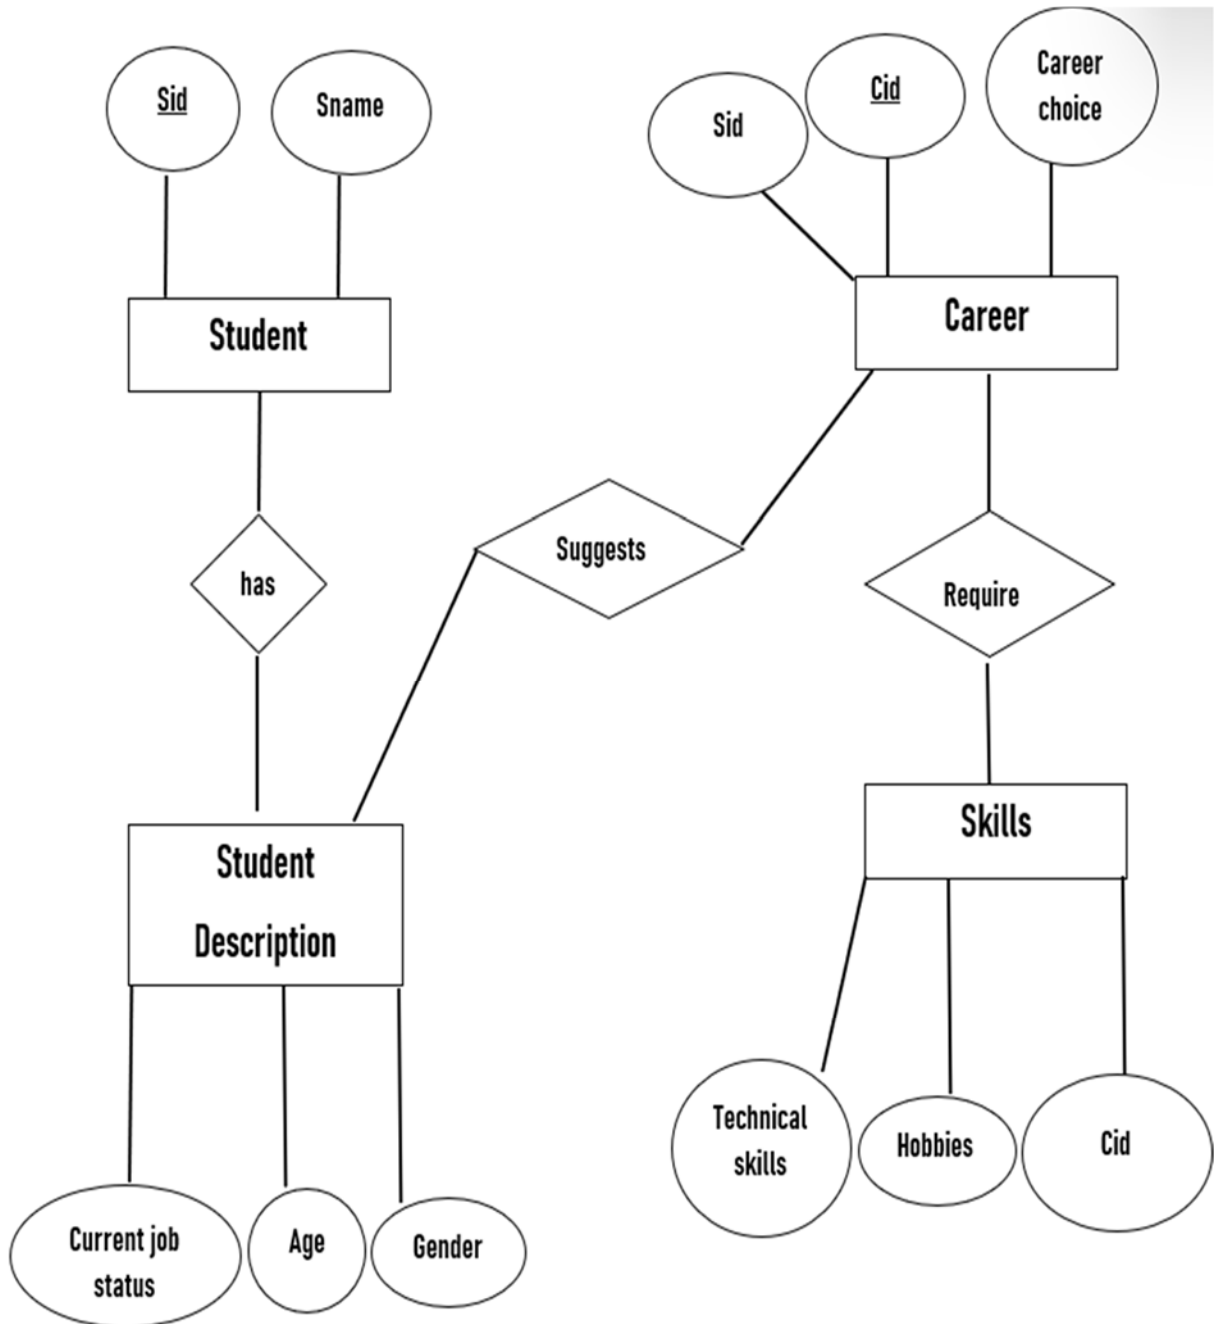

TABLE CREATED IN SQL:

1.Student Table

```
SQL> create table student(  
  2  sid number,  
  3  sname varchar2(30) not null);  
  
Table created.  
  
SQL> alter table student add constraint pk_student primary key(sid);  
  
Table altered.  
  
SQL> desc student  
Name                               Null?    Type  
-----  
SID                                NOT NULL NUMBER  
SNAME                              NOT NULL VARCHAR2(30)  
  
SQL> _
```

2.Student Description Table

```
SQL> create table Student_Description(  
  2  SID varchar2(15),  
  3  AGE varchar2(10),  
  4  GENDER varchar2(15) NOT NULL,  
  5  CONSTRAINT FK_SID FOREIGN KEY (SID) REFERENCES STUDENT(SID) ON DELETE CASCADE);  
  
Table created.  
  
SQL> SELECT * FROM STUDENT_DESCRIPTION;  
  
no rows selected  
  
SQL> DESC STUDENT_DESCRIPTION;  
Name                               Null?    Type  
-----  
SID                                VARCHAR2(15)  
AGE                                VARCHAR2(10)  
GENDER                              NOT NULL VARCHAR2(15)
```

3.Skills Table

```
SQL> CREATE TABLE SKILLS(  
  2  SID varchar2(15),  
  3  SS1 VARCHAR2(30) NOT NULL,  
  4  SS2 VARCHAR2(30) NOT NULL,  
  5  AOI VARCHAR2(30) NOT NULL,  
  6  CONSTRAINT FK_SID1 FOREIGN KEY (SID) REFERENCES STUDENT(SID) ON DELETE CASCADE);
```

Table created.

```
SQL> DESC SKILLS;
```

| Name | Null? | Type |
|------|----------|--------------|
| SID | | VARCHAR2(15) |
| SS1 | NOT NULL | VARCHAR2(30) |
| SS2 | NOT NULL | VARCHAR2(30) |
| AOI | NOT NULL | VARCHAR2(30) |

4. Career Status table

```
SQL> CREATE TABLE CARRER(  
  2  SID varchar2(15),  
  3  JS VARCHAR(10) NOT NULL,  
  4  CONSTRAINT FK_SID2 FOREIGN KEY (SID) REFERENCES STUDENT(SID) ON DELETE CASCADE);
```

Table created.

```
SQL> DESC CARRER;
```

| Name | Null? | Type |
|------|----------|--------------|
| SID | | VARCHAR2(15) |
| JS | NOT NULL | VARCHAR(10) |

DATABASE DESIGN:

SQL> SELECT * FROM TAB;

| TNAME | TABTYPE | CLUSTERID |
|-------|---------|-----------|
|-------|---------|-----------|

| | | |
|---------------------|-------|--|
| CARRER | TABLE | |
| SKILLS | TABLE | |
| STUDENT | TABLE | |
| STUDENT1 | TABLE | |
| STUDENT_DESCRIPTION | TABLE | |

SQL> DESC STUDENT;

| Name | Null? | Type |
|-------|-------|-----------------------|
| SID | | NOT NULL VARCHAR2(15) |
| SNAME | | NOT NULL VARCHAR2(20) |

SQL> DESC STUDENT_DESCRIPTION;

| Name | Null? | Type |
|--------|-------|-----------------------|
| SID | | VARCHAR2(15) |
| AGE | | VARCHAR2(10) |
| GENDER | | NOT NULL VARCHAR2(15) |

SQL> DESC SKILLS;

| Name | Null? | Type |
|------|-------|-----------------------|
| SID | | VARCHAR2(15) |
| SS1 | | NOT NULL VARCHAR2(30) |
| SS2 | | NOT NULL VARCHAR2(30) |
| AOI | | NOT NULL VARCHAR2(30) |

| Name | Null? | Type |
|------|-------|-----------------------|
| SID | | VARCHAR2(15) |
| JS | | NOT NULL VARCHAR2(10) |

SQL> SPOOL OFF

DML Operations

1.INSERTING VALUES INTO STUDENTS TABLE:

```
SQL> insert into student values(&sid,&sname');
Enter value for sid: 0001
Enter value for sname: Anusha
old 1: insert into student values(&sid,&sname')
new 1: insert into student values(0001,'Anusha')

1 row created.

SQL> /
Enter value for sid: 0002
Enter value for sname: bindhu
old 1: insert into student values(&sid,&sname')
new 1: insert into student values(0002,'bindhu')

1 row created.

SQL> /
Enter value for sid: 0003
Enter value for sname: chandra
old 1: insert into student values(&sid,&sname')
new 1: insert into student values(0003,'chandra')

1 row created.

SQL> select * from student;

      SID SNAME
-----
       1 Anusha
       2 bindhu
       3 chandra

SQL>
```

2.INSERTING VALUES INTO STUDENT_DESCRIPTION TABLE:

```
Run SQL Command Line

7 rows selected.

SQL> insert into student_description values('&sid','&age','&gender');
Enter value for sid: 11
Enter value for age: 23
Enter value for gender: F
old 1: insert into student_description values('&sid','&age','&gender')
new 1: insert into student_description values('11','23','F')

1 row created.

SQL> /
Enter value for sid: 12
Enter value for age: 54
Enter value for gender: M
old 1: insert into student_description values('&sid','&age','&gender')
new 1: insert into student_description values('12','54','M')

1 row created.

SQL> /
Enter value for sid: 13
Enter value for age: 23
Enter value for gender: 7
old 1: insert into student_description values('&sid','&age','&gender')
new 1: insert into student_description values('13','23','7')

1 row created.

SQL> _
```

CAREER DENDROGRAM

3.INSERTING VALUES INTO SKILLS TABLE:

```
SQL>
SQL> insert into skills values('&sid','&ss1','&ss2','&aoi');
Enter value for sid: 11
Enter value for ss1: Critical Thinking
Enter value for ss2: creativity
Enter value for aoi: Artistic - CREATORS
old 1: insert into skills values('&sid','&ss1','&ss2','&aoi')
new 1: insert into skills values('11','Critical Thinking','creativity','Artistic - CREATORS')

1 row created.
```

4.INSERTING VALUES INTO CARRER TABLE:

```
SQL> insert into carrer values('&sid','&js');
Enter value for sid: 11
Enter value for js: yes
old 1: insert into carrer values('&sid','&js')
new 1: insert into carrer values('11','yes')

1 row created.

SQL> /
Enter value for sid: 12
Enter value for js: no
old 1: insert into carrer values('&sid','&js')
new 1: insert into carrer values('12','no')

1 row created.

SQL> /
Enter value for sid: 13
Enter value for js: yes
old 1: insert into carrer values('&sid','&js')
new 1: insert into carrer values('13','yes')

1 row created.
```

IMPLEMENTATION

JAVA-SQL Connectivity using JDBC:

Java Database Connectivity (JDBC) is an application programming interface (API) for the programming language Java, which defines how a client may access a database. It is a Java-based data access technology used for Java database connectivity. It is part of the Java Standard Edition platform, from Oracle Corporation. It provides methods to query and update data in a database and is oriented towards relational databases.

The connection to the database can be performed using Java programming (JDBC API) as:

```
{  
  
    DriverManager.registerDriver(new oracle.jdbc.driver.OracleDriver());  
  
    // Connect to Oracle Database  
  
    Connection con = DriverManager.getConnection("jdbc:oracle:thin:@localhost:1521:XE"  
,"shruthi","kovvurss");  
  
    Statement statement = con.createStatement()  
  
    String query = "UPDATE SKILLS SET SS1=" +"""+ jTextField3.getText() +""",SS2=" +"""+  
jTextField5.getText() +""", AOI ="+" ""+ jTextField2.getText() +"" WHERE SID =" + jTextField4.getText();  
  
    ResultSet rs = statement.executeQuery(query);  
  
    JOptionPane.showMessageDialog(new JFrame(), "Upadated Successfully", "INFORMATION",  
JOptionPane.INFORMATION_MESSAGE);  
  
    rs.close();  
  
    statement.close();  
  
    con.close(); }
```

Front-end Programs (User Interfaces) Home Page:

Folder Structure:

The screenshot displays the GitHub interface for the repository 'CARRER-DENDROGRAM' by user 'Shruthi-Kovvur'. The repository is on the 'main' branch, has 1 branch, and 0 tags. The commit history table shows the following files and their commit details:

| File | Commit Message | Commit Hash | Time Ago |
|-----------------------------------|----------------------|-------------|---------------|
| Carrer_Status.java | Add files via upload | 5cca784 | 4 minutes ago |
| Dendrogram.java | Add files via upload | | 3 minutes ago |
| INRO.java | Add files via upload | | 5 minutes ago |
| README.md | Initial commit | | 5 hours ago |
| Skills.java | Add files via upload | | 4 minutes ago |
| Student.java | Add files via upload | | 5 minutes ago |
| Student_Description.java | Add files via upload | | 4 minutes ago |
| career-success-path-stair (2).jpg | Add files via upload | | now |

Below the commit history, the 'README.md' file is visible, showing the title 'CARRER-DENDROGRAM'.

TESTING

CAREER DENDROGRAM INTRODUCTION PAGE:

STUDENT PAGE:

I.UPDATE WITHOUT INFORMATION

The screenshot displays a web application interface for a 'STUDENT PAGE'. A modal dialog box titled 'Notice' is centered on the screen, featuring an information icon and the message 'Please select single Row For Update..'. The background interface includes a form with input fields for 'Student ID' and 'Student Name'. To the right of the form is a table with two columns: 'Student ID' and 'Student Name'. At the bottom of the page, there are four buttons: 'Submit', 'Modify', 'Delete', and 'View Table'.

II.INSERT STUDENT TABLE INFORMATION

Student Student_Description Skills Carrer_Status

Student ID : 21

Student Name : SIRI

Submit Modify Delete View Table

IV.DELETE STUDENT TABLE INFORMATION

CAREER DENDROGRAM

STUDENT DESCRIPTION PAGE:

I.UPDATE WITHOUT INFORMATION

The screenshot shows a web application window titled "Student Description". It contains input fields for "Student ID", "Age", and "Gender". A "Notice" dialog box is displayed in the center, stating "Please select single Row For Update..". The dialog box has an "OK" button. In the background, there is a table with columns "Student ID", "Age", and "Gender". At the bottom of the form, there are buttons for "Submit", "Modify", "Delete", and "View Table".

II.INSERT STUDENT TABLE INFORMATION

The screenshot shows the same web application window, but now the input fields are filled with data: "Student ID" is 12, "Age" is 23, and "Gender" is Male. An "INFORMATION" dialog box is displayed in the bottom right corner, stating "Inserted Successfully". The dialog box has an "OK" button. The table in the background is still empty. At the bottom of the form, there are buttons for "Submit", "Modify", "Delete", and "View Table".

CAREER DENDROGRAM

SKILLS PAGE:

I.UPDATE WITHOUT INFORMATION

The screenshot shows a web application interface for updating student skills. The form includes fields for Student ID, Skills Sets, and Area of Interest. A 'Notice' dialog box is displayed in the center, stating 'Please select single Row For Update..'. The 'View Table' button is visible at the bottom right.

| Student ID | Skill Set 1 | Skill Set 2 | AOI |
|------------|-------------|-------------|-----|
| | | | |
| | | | |
| | | | |
| | | | |

II.INSERT SKILLS TABLE INFORMATION

The screenshot shows the same web application interface, but now with data entered. The Student ID is 13, Skills Sets are People Management and Problem Solving, and Area of Interest is Enterprising - PERSUADERS. An 'INFORMATION' dialog box is displayed, stating 'Inserted Successfully'. The 'View Table' button is visible at the bottom right.

| Student ID | Skill Set 1 | Skill Set 2 | AOI |
|------------|-------------|-----------------|----------------------|
| 12 | Creativity | Problem Solving | Investigating - T... |
| 11 | Creativity | Judgment | Investigating - T... |

CAREER DENDROGRAM

The screenshot shows a web application window titled "Student- Student_Description Skills Career_Status". The form contains the following fields and controls:

- Student ID :** A text input field containing the value "13".
- Skills Sets :** Two dropdown menus. The first is set to "People Management" and the second is set to "Problem Solving". Below each dropdown is a corresponding text input field containing the same value.
- Area of Interest :** A dropdown menu set to "Enterprising - PERSUADERS" with a corresponding text input field below it.
- Buttons:** "Submit", "Modify", "Delete", and "View Table".
- Table:** A table on the right side of the form with the following data:

| Student ID | Skill Set 1 | Skill Set 2 | AOI |
|------------|------------------|-----------------|----------------------|
| 12 | Creativity | Problem Solving | Investigating - T... |
| 13 | People Manage... | Problem Solving | Enterprising - P... |
| 11 | Creativity | Judgment | Investigating - T... |

III.UPDATE SKILLS TABLE INFORMATION

The screenshot shows the same web application window, but with the following changes:

- Student ID :** The text input field now contains the value "12".
- Skills Sets :** The first dropdown menu is now set to "Emotional Intelligence", and the second remains set to "Problem Solving". The corresponding text input fields also reflect these changes.
- Area of Interest :** The dropdown menu is still set to "Enterprising - PERSUADERS", but the text input field below it now contains "Investigating - THINKERS".
- Message Box:** A small "INFORMATION" dialog box is displayed in the center, with the text "Updated Successfully" and an "OK" button.
- Table:** The table on the right side of the form now shows the updated data for Student ID 12:

| Student ID | Skill Set 1 | Skill Set 2 | AOI |
|------------|------------------|-----------------|----------------------|
| 12 | Creativity | Problem Solving | Investigating - T... |
| 13 | People Manage... | Problem Solving | Enterprising - P... |
| 11 | Creativity | Judgment | Investigating - T... |

CAREER DENDROGRAM

IV.DELTE SKILLS TABLE INFORMATION

The screenshot shows a web application window titled "Student Student_Description Skills Carrer_Status". The form contains the following fields:

- Student ID: 11
- Skills Sets: Emotional Intelligence (dropdown), Problem Solving (dropdown), Creativity (text), Judgment (text)
- Area of Interest: Enterprising - PERSUADERS (dropdown), Investigating - THINKERS (text)

Buttons at the bottom: Submit, Modify, Delete, View Table.

An "INFORMATION" dialog box is displayed in the center, showing a blue information icon and the text "Deleted Successfully".

| Student ID | Skill Set 1 | Skill Set 2 | AOI |
|------------|------------------|-----------------|----------------------|
| 12 | Creativity | Problem Solving | Investigating - T... |
| 13 | People Manage... | Problem Solving | Enterprising - P... |
| 11 | Creativity | Judgment | Investigating - T... |

The screenshot shows the same web application window as above, but the "INFORMATION" dialog box is no longer present. The table on the right now contains only two rows:

| Student ID | Skill Set 1 | Skill Set 2 | AOI |
|------------|----------------------|-----------------|----------------------|
| 12 | Emotional Intelli... | Problem Solving | Investigating - T... |
| 13 | People Manage... | Problem Solving | Enterprising - P... |

CAREER DENDROGRAM

CAREER STATUS PAGE:

I.UPDATE WITHOUT INFORMATION

The screenshot shows a web application window titled "Student Student_Description Skills Carrer_Status". On the left, there are input fields for "Student ID" (containing "11") and "Job_Status" (containing "YES"). On the right, there is a table with columns "Student ID" and "Job Status". The table contains two rows, both with "11" in the "Student ID" column and "YES" in the "Job Status" column. A "Notice" dialog box is displayed in the center, with the message "Please select single Row For Update.." and an "OK" button. At the bottom of the window, there are buttons for "Submit", "Modify", "Delete", and "View Table".

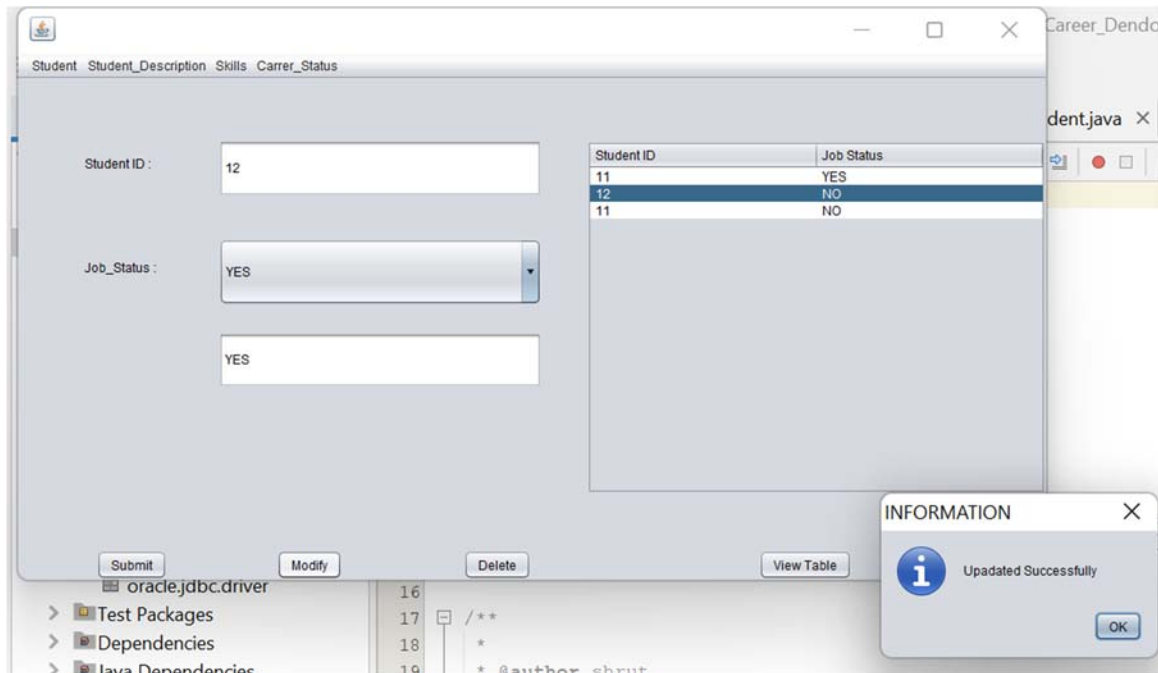

| Student ID | Job Status |
|------------|------------|
| 11 | YES |
| 11 | NO |

II.INSERT CAREER TABLE INFORMATION

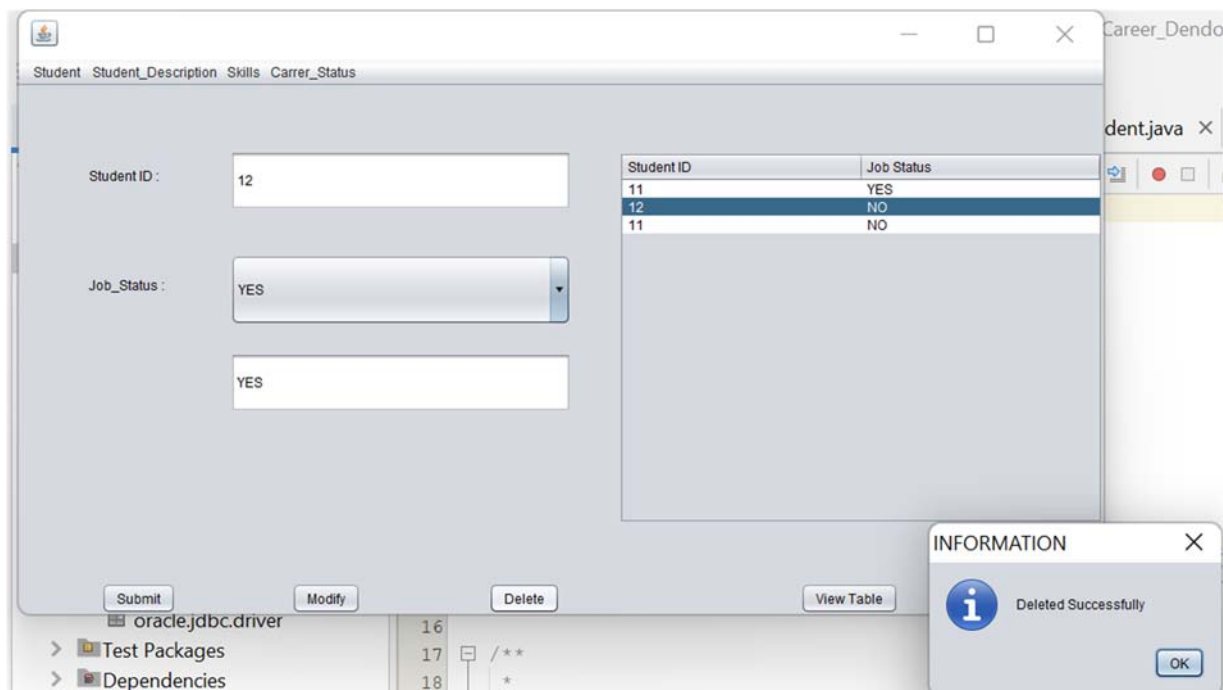

The screenshot shows the same web application window as before. The "Student ID" field contains "11" and the "Job_Status" dropdown menu is set to "YES". The table on the right is empty. An "INFORMATION" dialog box is displayed in the bottom right corner, with the message "Inserted Successfully" and an "OK" button. At the bottom of the window, there are buttons for "Submit", "Modify", "Delete", and "View Table".

| Student ID | Job Status |

CAREER DENDROGRAM

II.LOAD THE DETAILS

The screenshot shows a web application window titled "CAREER DENDROGRAM". On the left, there is a sidebar with a tree view under "CARRER CHOICES" (note the typo) containing: REALISTIC, INVESTIGATING, ARTISTIC, SOCIAL, ENTERPRISING, and CONVENTIONAL. The main area has two input fields: "STUDENT ID :" with the value "12" and "AREA OF INTEREST:" with the value "Investigating - THINKERS". Below these is a list of career options: CIVIL SERVICE, ARMY, CODERS, DOCTOR, and MEDIA. On the right, there is a table with columns "SID" and "AOI". The table contains two rows: SID 12 with AOI "Investigating - THINKERS" (highlighted in blue) and SID 13 with AOI "Enterprising - PERSUADERS". At the bottom right is a "VIEW" button, and at the bottom center is a "BACK" button.

| SID | AOI |
|-----|---------------------------|
| 12 | Investigating - THINKERS |
| 13 | Enterprising - PERSUADERS |

The screenshot shows the same web application window, but now for Student ID 13. The "STUDENT ID :" field contains "13" and the "AREA OF INTEREST:" field contains "Enterprising - PERSUADERS". The list of career options has changed to: BUSINESS, MARKETING, and ENTREPRENEURS. The table on the right now highlights the row for SID 13 with AOI "Enterprising - PERSUADERS". The "VIEW" and "BACK" buttons remain at the bottom.

| SID | AOI |
|-----|---------------------------|
| 12 | Investigating - THINKERS |
| 13 | Enterprising - PERSUADERS |

RESULTS

I have successfully completed the mini-project “*CAREER DENDROGRAM*” .

DISCUSSION AND FUTURE WORK

This project contains the basic interaction of giving information by students for suggesting the correct career choice. It has a very basic user interface. Future scope would be to make the UI more appealing by using graphics. more feature would be to allow student-users to upload their resumes and official One documents required so that we can suggest more accurate career choices. We can also think of including a feedback system to allow the users to leave their valuable feedback after using this app. Making this feedback to be publicly viewable, would attract many more users to use this app.
